

Real distribution dendrogram

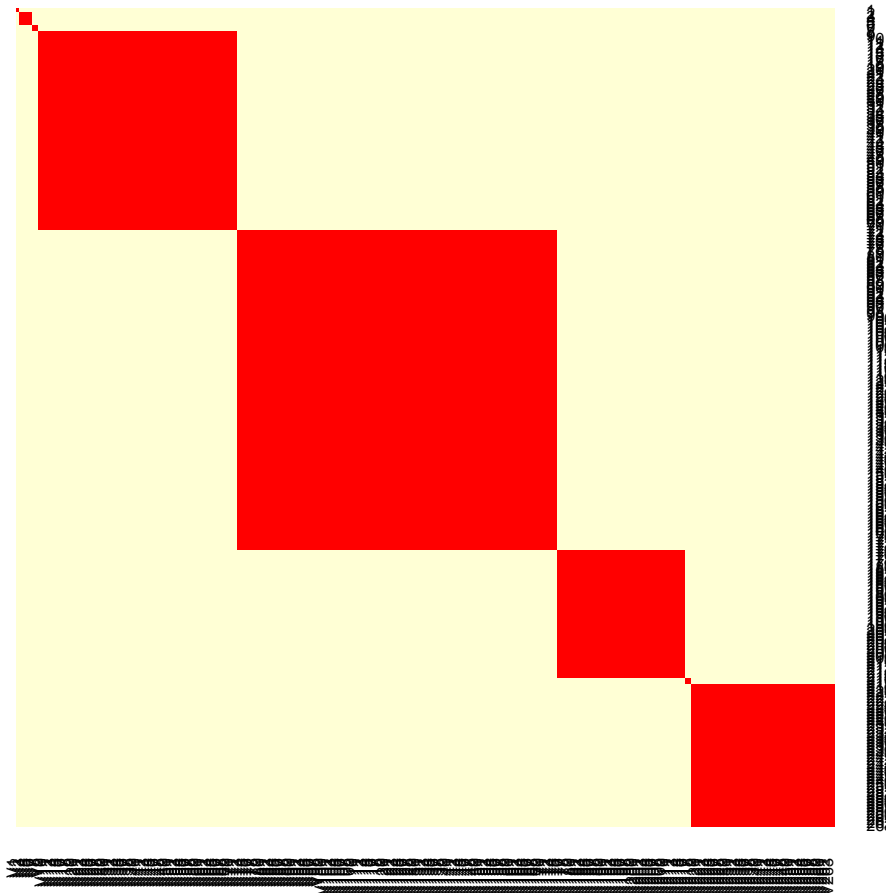

Teoretical distribution dendrogram

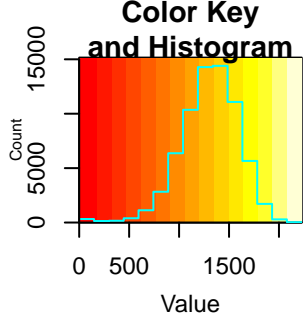

and Histogram

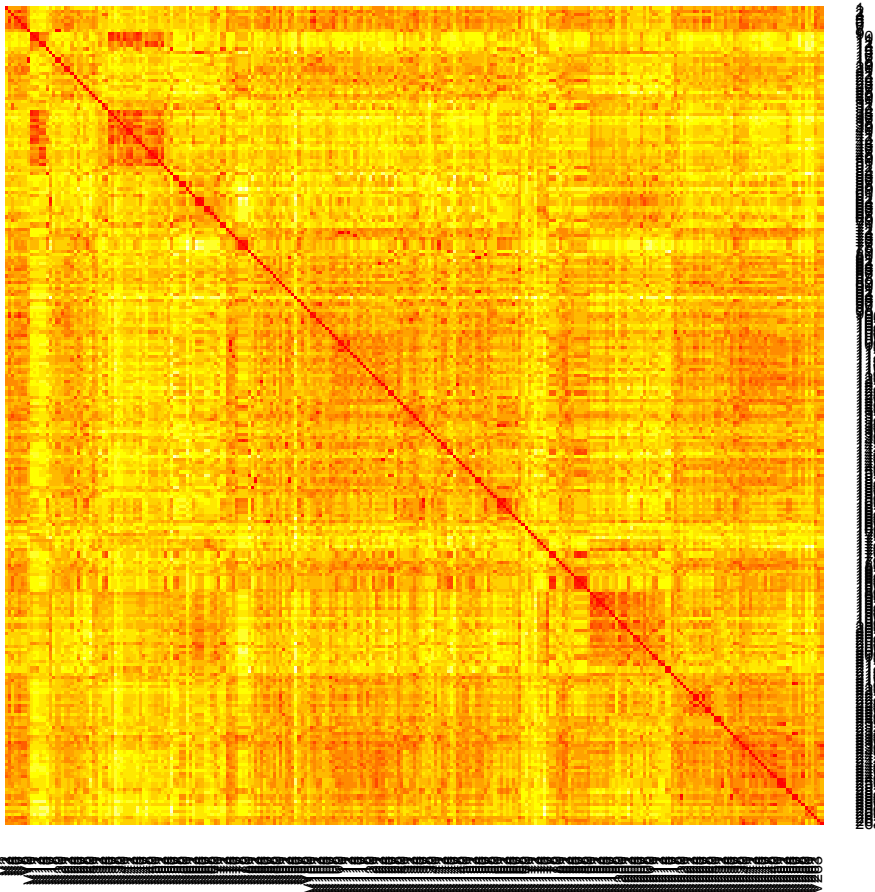

Real cluterling heatmap

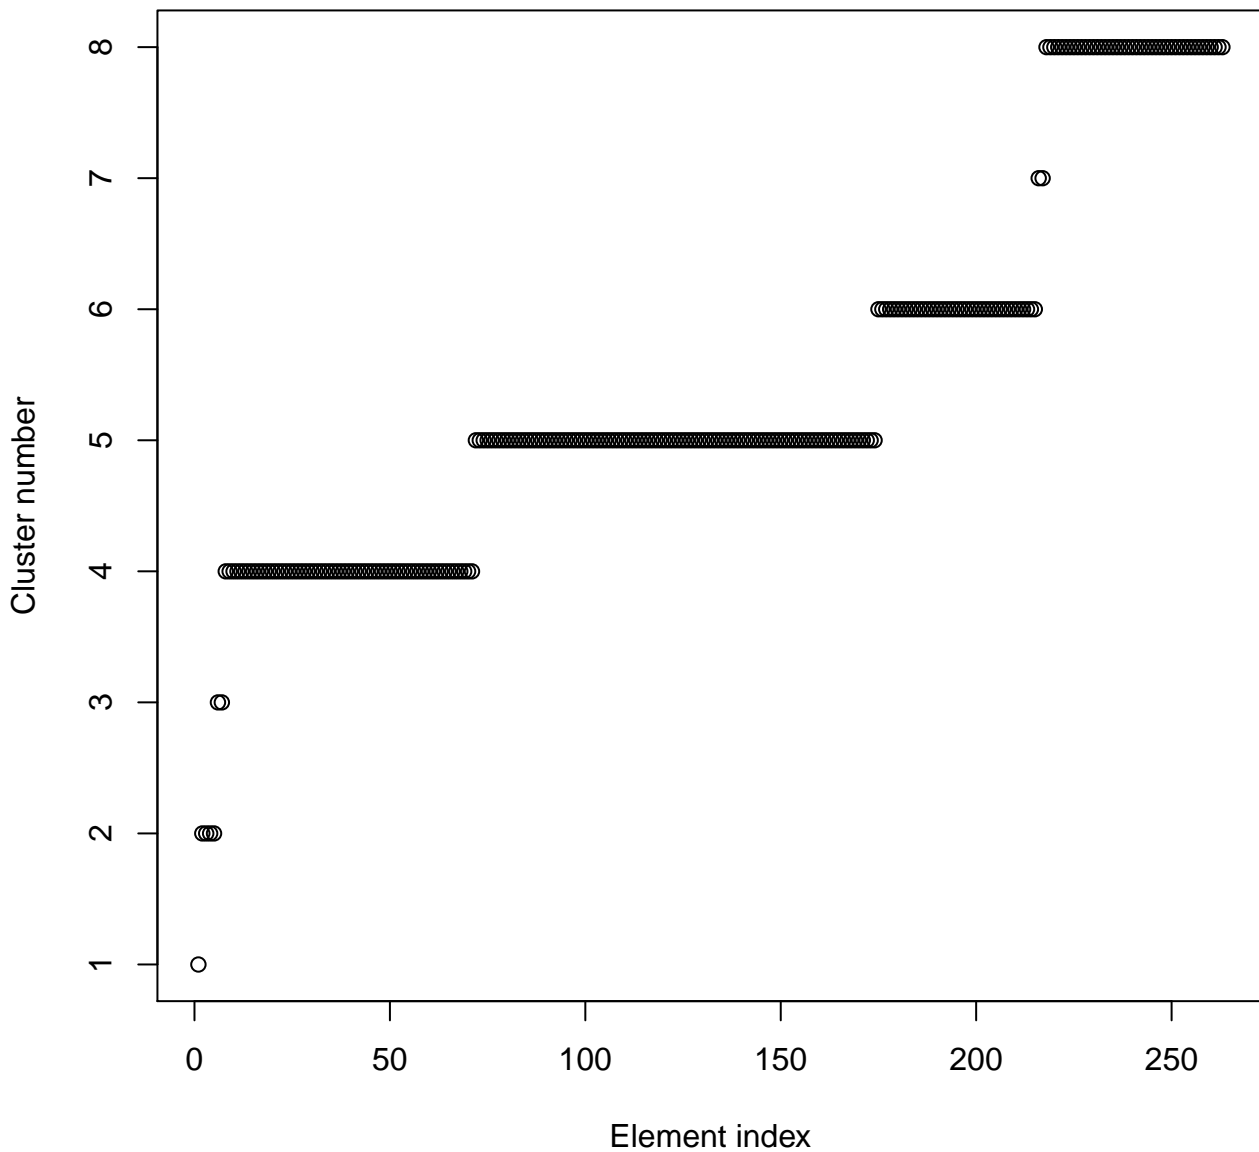

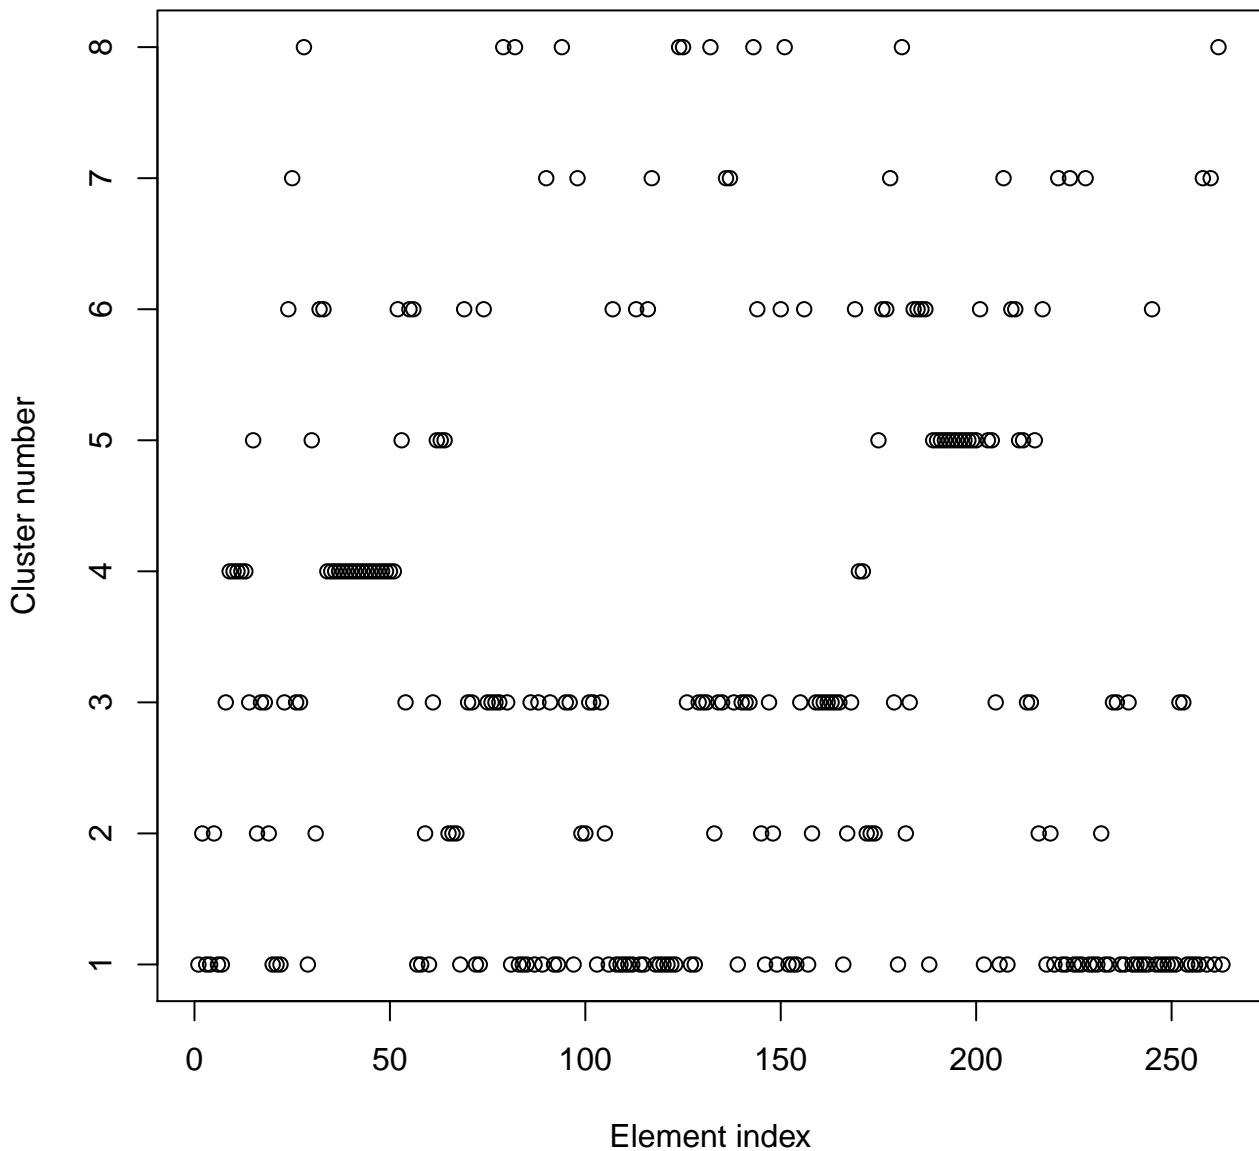

Teoretical clutering heatmap

Real clutering plot

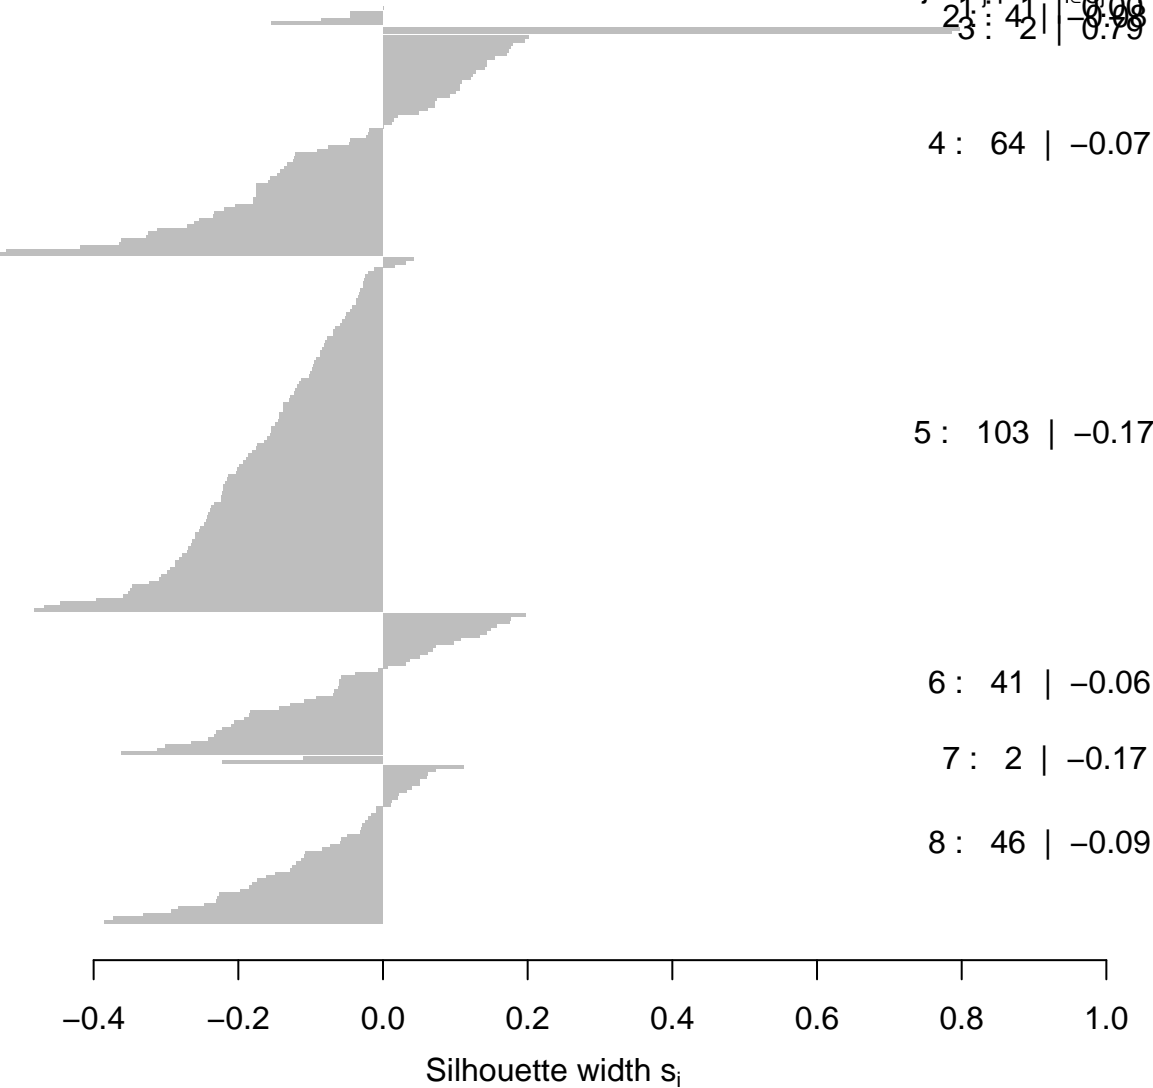

Teoretical clutering plot

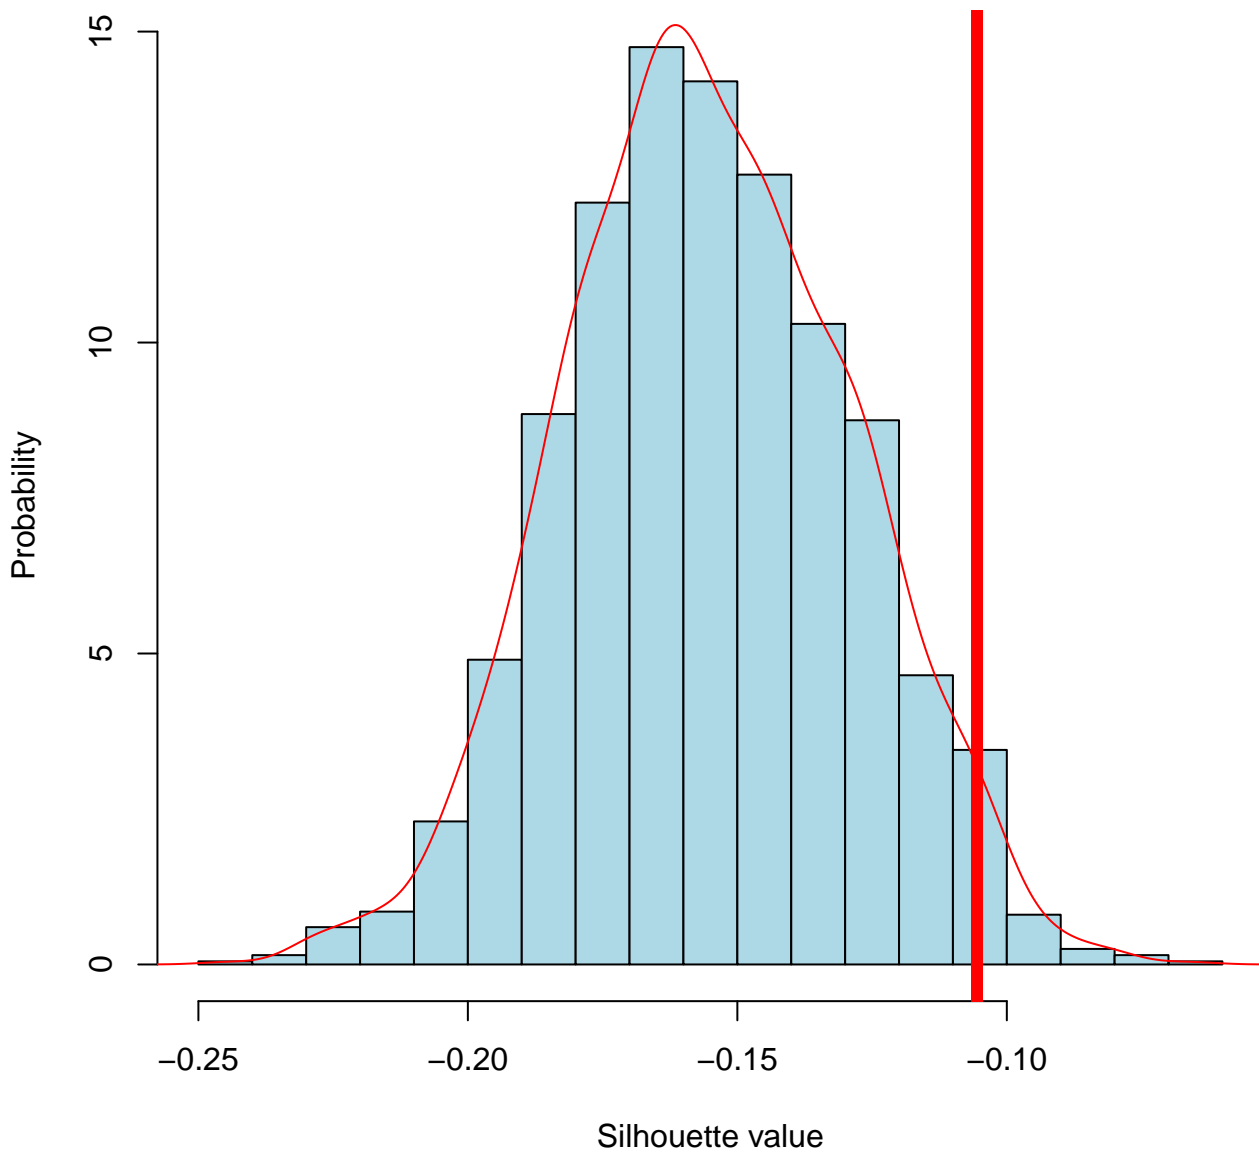

Silhouette plot of (x = group1, dist = dist2)

n = 263

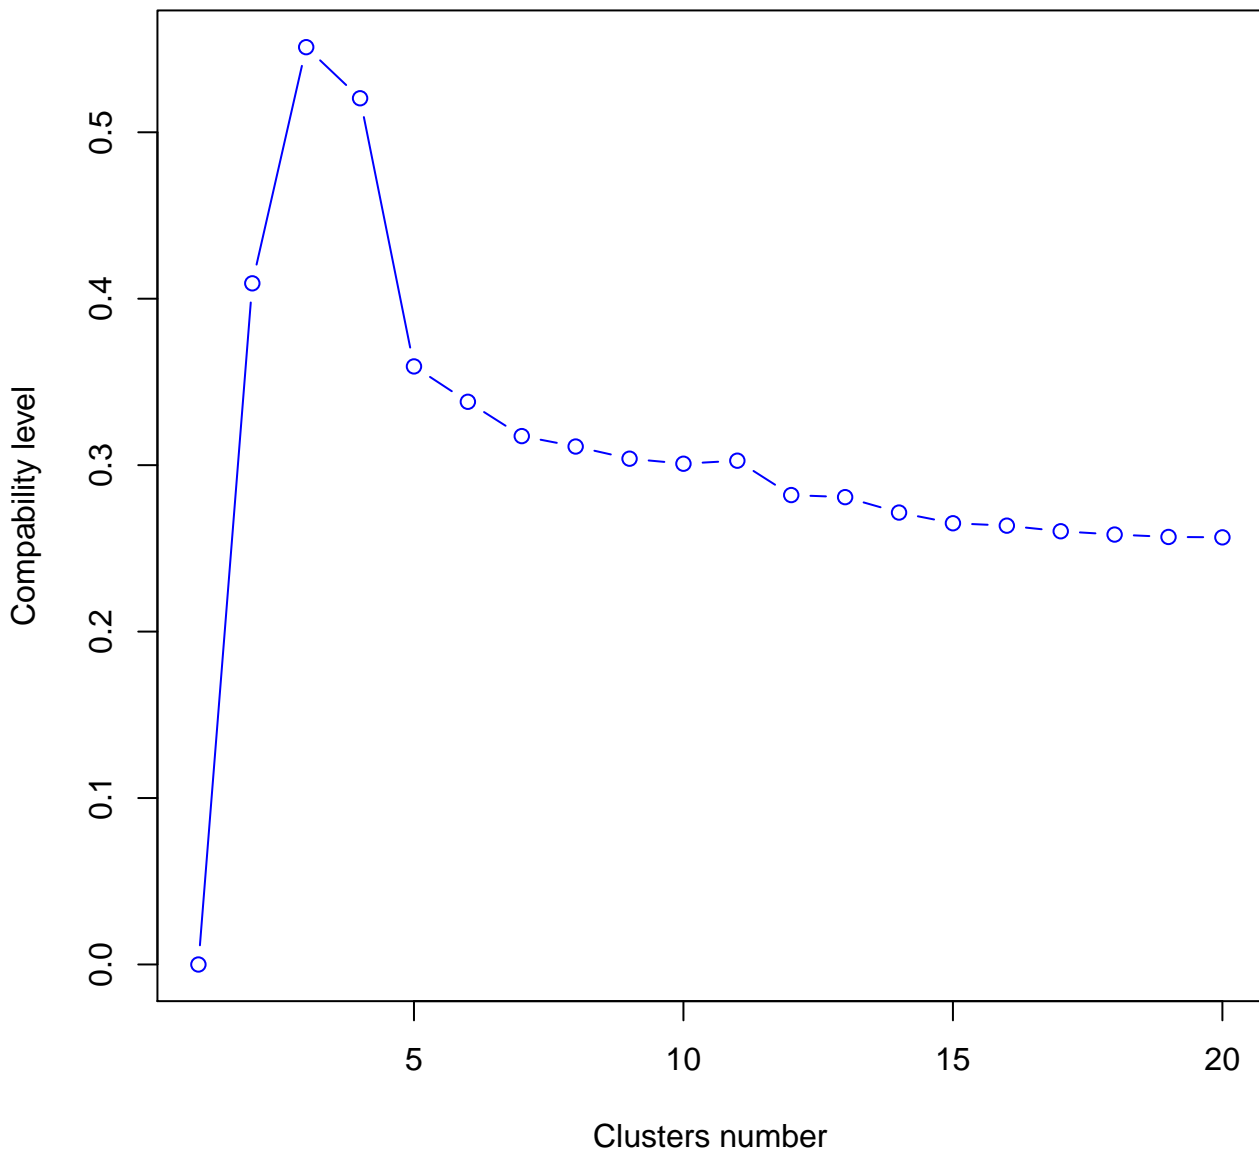

Average silhouette width : -0.11

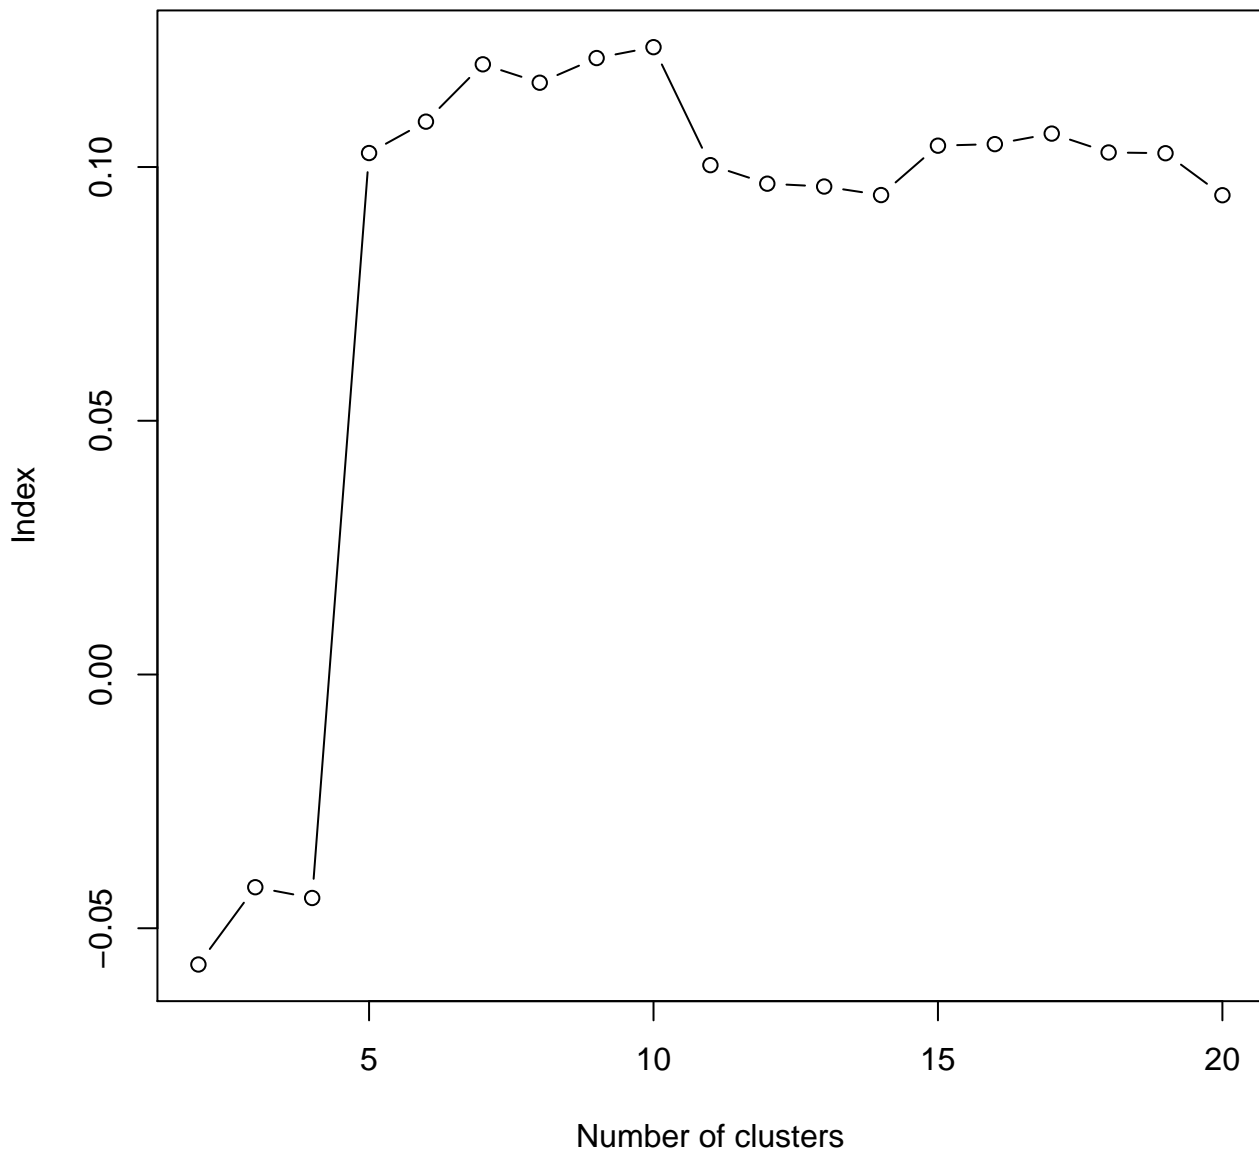

Silhouette distribution while shuffling and the real one

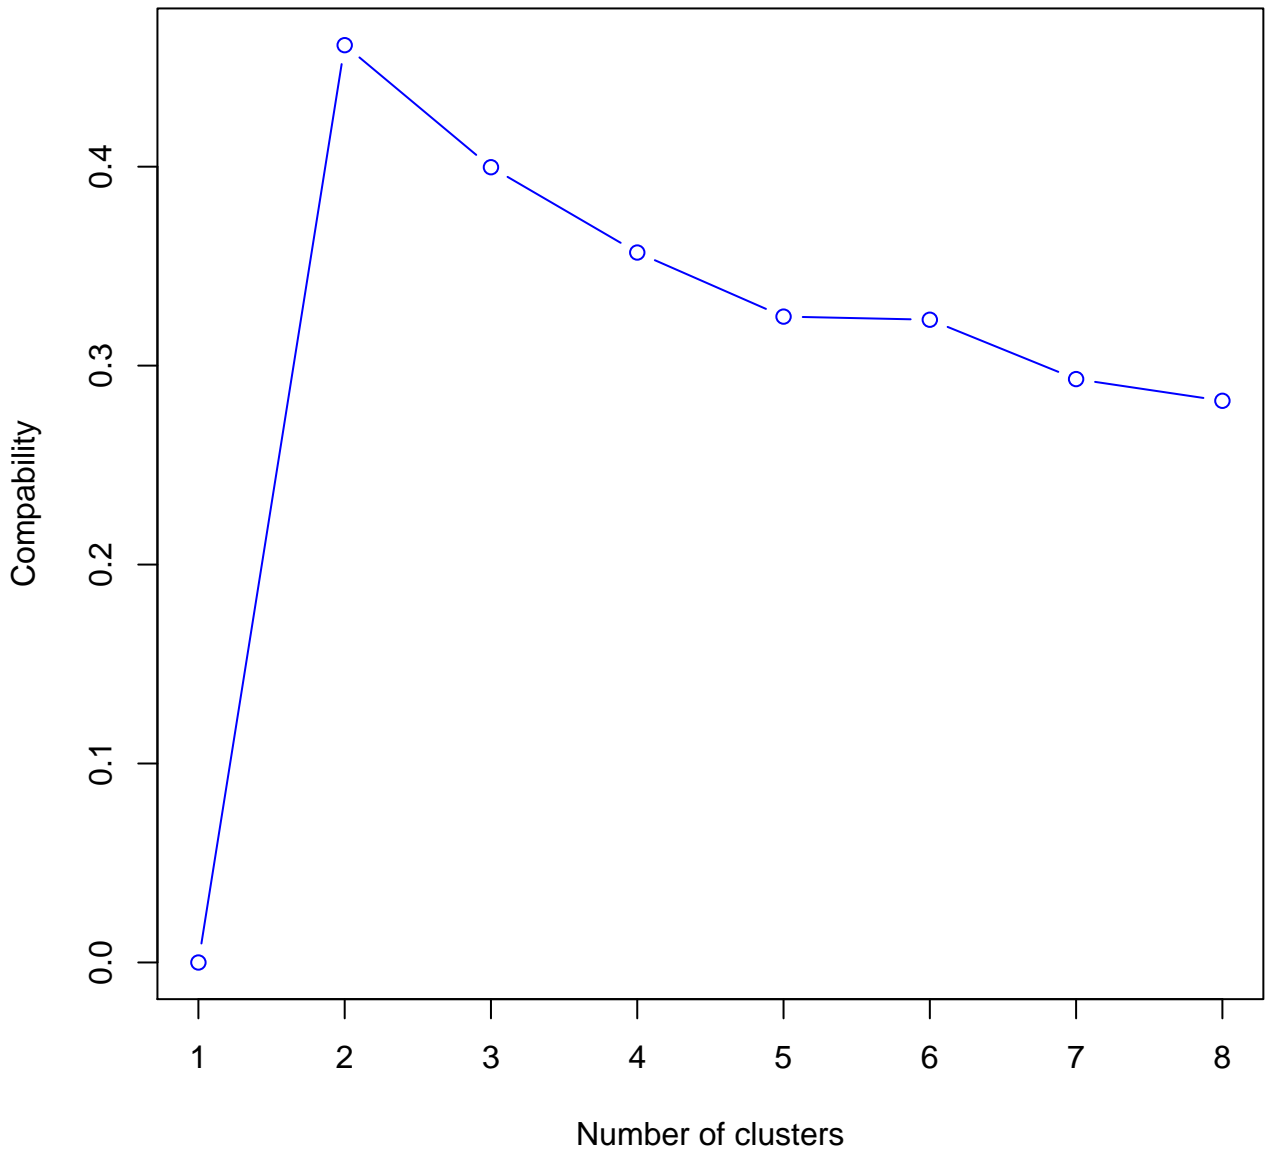

**Correlation between compability of real and
teoretical clustering and clusters number
using histogram clustering**

Corrected RAND index for histogram clustering

**Correlation between compability of real data and
teoretical clustering and clusters number
using kmeans clustering**

Corrected RAND index for kmeans clustering
